The Authorised Limit for External Debt sets the maximum level of external borrowing that the Council can incur. It reflects the level of borrowing which, while not desired, could be afforded in the short-term, but is not sustainable. It is the Council's expected maximum borrowing need with headroom for unexpected cashflow. The limit also provides scope for the Council to borrow in advance of need. Other long-term liabilities include items such as PFI schemes and finance leases.

The Operational Boundary for External Debt is based on the probable external debt during the course of the year. It is not a limit and actual borrowing could vary around this boundary for short times during the year. It acts as an early warning indicator to ensure the authorised limit is not breached. Similarly to the authorised limit it also provides scope for the Council to borrow in advance of need. Other long-term liabilities include items such as PFI schemes and finance leases.

The Council considers security, liquidity & yield in that order when making investment decisions. It uses credit ratings along with a range of other criteria such as sovereign support mechanisms, credit default swaps & share prices to assess the credit strength of a counterparty

A full description of credit criteria used is included in section 6.2 of the Strategy Statement of the Councils Treasury Management
