**SUBJECT: Additional Document for Information:
Islington's Early Help Independent Evaluation – executive summary**

The executive summary of a recent independent evaluation of Islington's Early Help Services is appended. The evaluation focused on three services, only two of which are relevant for the purposes of the early help scrutiny. The third strand of the report, not covered by this scrutiny, is family support in Children's Centres as this is embedded within Children's Centres' multi-disciplinary early intervention and prevention offer, a targeted element within the the universal service.

This additional document is provided for information only. Scrutiny members are invited to consider the parts of the report referring to the two targeted services, Families First and IFIT, which are within the scope of the early help scrutiny topic.
