Subject: STANDARDS AND ETHICS INDICATORS

1. Synopsis

This report sets out a series of indicators which will help give members an indication of the health of the authority in relation to Standards and Ethics.

2. Recommendation

That the Committee consider the indicators for the fourth quarter of 2010 and comment as appropriate.

3. Background

- 3.1 This report pulls together existing information which will help give members an indication of the health of the authority in relation to Standards and Ethics. The format of the report has been amended to reduce it's length and to make it easier to read. The revised format is set out in Appendices A and B. Officers did look at producing this information graphically but it was not user friendly and did not always work given the comments on some of the indicators.
- 3.2 Appendix C sets out details as requested at the last meeting of both internal complaints about FOI and those made to the Information Commissioner.

4. Conclusion and Reasons for Recommendation

4.1 These indicators are provided at the request of the committee to help give the committee an indication of the health of the authority in relation to Standards and Ethics.
