<b>SCRUTINY INITIATION DOCUMENT (SID)</b>
<b>Title of review: Net Zero Carbon 2030- Circular Economy</b>
<b>Scrutiny Committee: Environment and Regeneration</b>
<b>Director leading the review: Keith Townsend, Corporate Director - Environment</b>
<b>Lead officers: Sarah Hitchcock, Head of Net Zero Carbon Programme</b>
<p><b>Overall aim of the review:</b></p> <p>To review how the Council is taking the lead on encouraging sustainable development, developing policies to encourage sustainable economic development, and working to identify ways to support a circular economy in our borough with residents and businesses, to help achieve this goal. The review will look at the five Rs, Refuse, Reduce, Reuse, Recycle and Repair.</p>
<p><b>Objectives of the review:</b></p> <ul style="list-style-type: none"> <li>• Understand the impact the Circular Economy Action Plan is having on the Net Zero Carbon 2030 goal.</li> <li>• To examine what members, residents and local businesses can do to support a Circular Economy in Islington, and to review how this can be best communicated</li> <li>• To make suggestions to feed into the upcoming Circular Economy Action Plan</li> <li>• To assess the impact of the council's development and economic development policies to ensure they are championing sustainable approaches</li> <li>• To consider how all council services can contribute to the circular economy</li> </ul>
<p><b>How does this review contribute to the Council's priorities?</b></p> <p>This review will consider how a Circular Economy can help to achieve to the Council's Net Zero Carbon goal and therefore is linked to the priority 'We work together to create a cleaner, greener, healthier borough'.</p>
<p><b>Scope of the review and evidence to be received:</b></p> <p>The review will focus on...</p> <ol style="list-style-type: none"> <li>1. How the Local Plan, the way we build Council homes and the way we manage our own buildings can all support a circular economy.</li> <li>2. How the effective local transport of people, products and materials is central to a circular economy, enabling local goods and material flows.</li> <li>3. How a circular economy can bring a range of economic benefits, from improved resource security at a larger scale, through to new economic and employment opportunities at the local scale.</li> <li>4. How circular economy approaches are promoted, and how to effectively work in partnership with residents and local businesses on this issue.</li> </ol>

The Committee will receive the following evidence:
