As the portfolio inception is August 2019, a 12- month performance is not applicable. The outperformance was mainly due to stock selection within financials, and consumer staples was the biggest detractor.</p>												
3.7	<p><b>Newton Investment Management</b></p> <p>3.7.1 Newton is the Fund’s other global equity manager with an inception date of 1 December 2008. There have been amendments to the mandate the latest being a transfer to the London CIV platform.</p> <p>3.7.2 The inception date for the LCIV NW Global Equity Fund was 22 May 2017. 3.8.1	<p>Since 1992, the UK equities portfolio of the fund has been managed in-house by officers in the Loans and Investment section by passive tracking of the FTSE 350 Index. The mandate was amended as part of the investment strategy review to now track the FTSE All Share Index within a +/- 0.5% range per annum effective from December 2008. After a review of the fund's equities, carbon footprint Members agreed to track the FTSE UK All Share Carbon Optimised Index and this became effective in September 2017.</p>
3.8.2	<p>The fund returned 3.4% against FTSE All Share Index benchmark of 4.2% for the December quarter and a relative over performance of 0.30% since inception in 1992. The portfolio is now mirroring the low carbon index and dividend income of £19m used to support the cashflow needs of the pension bank account.</p>
3.9	<p><b>Standard Life</b></p>
3.9.1	<p>Standard Life has been the fund's corporate bond manager since November 2009. During the December quarter, the fund returned -0.5% against a benchmark of -0.7% and an absolute return of 6.8% per annum since inception.</p>
3.9.2	<p>The drivers behind the out performance in this quarter being underweight (versus the benchmark) in higher-rated issuers (particularly AAA and AA rated supranationals) and overweight in banks and utilities. Stock selection made a positive contribution.</p>
3.9.3	<p>The agreed infrastructure mandates are being funded from this portfolio and to date 5% has been drawn down.</p>
3.10	<p><b>Aviva</b></p>
3.10.1	<p>Aviva manages the fund's UK High Lease to Value property portfolio. The portfolio may therefore lag in speculative/bubble markets or when the property market is driven by capital growth in prime markets.</li> </ul>
3.11.3	<p>The fund returned a relative under performance of -6.5% against its benchmark 0.3% for the December quarter mainly due to changes in default pricing basis from bid price to offer price.</p> <p>The cash balance now stands at 9% compared to 8% last quarter.
