R.01	[REDACTED]	[REDACTED]	Business	[REDACTED]	23/03/2020	No comments to make on the designations applications. Requested to be added to the consultation database.
R.02	[REDACTED]	[REDACTED]	Statutory	[REDACTED]	24/03/2020	Encouraging communities to become more physically active through walking, cycling, informal recreation and formal sport plays an important part in this process. Providing enough sports facilities of the right quality and type in the right places is vital to achieving this aim. This means that positive planning for sport, protection from the unnecessary loss of sports facilities, along with an integrated approach to providing new housing and employment land with community facilities is important. It is essential therefore that the neighbourhood plan reflects and complies with national planning policy for sport as set out in the NPPF with particular reference to Parts 96 and 97. It is also important to be aware of Sport England's statutory consultee role in protecting playing fields and the presumption against the loss of playing field land.
R.03	[REDACTED]	[REDACTED]	Statutory	[REDACTED]	30/03/2020	No comments to make given the distance of the NF area from the Regent's Canal.
R.04	[REDACTED]	[REDACTED]	Statutory	[REDACTED]	16/04/2020	No comments to make on the suitability of the designations.
R.05	[REDACTED]	[REDACTED]	Business	[REDACTED]	16/04/2020	I am writing to lodge my full support for the creation of The Tileyard Road and Vale Royal Creative Neighbourhood Forum for the following reasons 1. We strive for the retention of local design and heritage characteristics. 2. It will help us protect Tileyard's vibrant creative character that has sprung up over the last 10 years, by supporting the increase of mixed and hybrid developments. 3. It will help us make it easier for pedestrians and cyclists to move freely and safely in Tileyard and Vale Royal. 4. It will encourage civic pride and local involvement of individuals and organisations in Islington's planning process and mean we have a seat at the table. 5. It will help us maintain a mix of uses and ensure we have the best opportunity to protect the important cultural character of this area, alongside industrial uses. As more than 200 businesses and 1300 creative professionals based at [REDACTED] strive to rebuild their lives following the Coronavirus Pandemic, I urge the Planning Policy department to approve the creation of The Tileyard Road and Vale Royal Creative Neighbourhood Forum all allow the professional creative community to survive, grow and showcase the best of Islington creative output.
R.06	[REDACTED]	[REDACTED]	Individual	n/a	16/04/2020	Same response template as R.05
R.07	[REDACTED]	[REDACTED]	Business	[REDACTED]	20/04/2020	Same response template as R.05
R.08	[REDACTED]	[REDACTED]	Individual	n/a	20/04/2020	Same response template as R.05
R.09	[REDACTED]	[REDACTED]	Statutory	[REDACTED]	22/04/2020	The proposed Neighbourhood Area does not appear to encompass any designated heritage assets, neither does it appear to be identified as within an archaeological priority area (Historic England/ GLAAS 2018). As such the potential for significant impacts on heritage are not at this stage evident but may arise in response to proposed growth and how new development/design reflects on the wider historic environment. At this stage we do not therefore consider it appropriate to comment in detail but would encourage the Forum, in the event of designation, to consider undertaking a local character analysis, identifying any older historic buildings or features which define local character and enhance the sense of place and community. While the majority of buildings within the proposed area are clearly functional post-war industrial in character a desk based assessment indicates the potential for a few older industrial buildings which might create a historic link to the wider industrial heritage of the area. We would also encourage the Forum to consider how any new development can contribute to the clear social and economic vibrancy of the area while complimenting and enhancing the wider setting of conservation areas (notably Camden Square) and historic landmarks, including identifying any key views and how these can be enhanced or protected.
R.10	[REDACTED]	[REDACTED]	Business	[REDACTED]	22/04/2020	I am the Director of [REDACTED] providing many essential services to the nearby community, as far as mental and physical wellbeing. These services are critical in day to day life and am in the process of discussing expansion plans offering more services and jobs to the local community. An increase of mixed and hybrid developments is essential to further increase the offering of the current vibrant creative community and keep the creative industries going! Pedestrian and cyclist safety would also be a great boost for the area and a decrease in traffic can only be a good thing. Establishment of the forum will encourage civic pride and local involvement of individuals and organisations in Islington's planning process and mean we have a seat at the table.

						I am writing to endorse the formation of the Tileyard Road and Vale Royal Creative Quarter Neighbourhood Area and Forum in my role as it's current [REDACTED]
R.11	[REDACTED]	[REDACTED]	Business	[REDACTED]	24/04/2020	<p>The Tileyard Road and Vale Royal Creative Neighbourhood Forum area represents the largest cluster of creative businesses associated with the music industry on earth. We're a unique locality, bringing together a diverse array of musicians, artists, and tech industry start-ups. Our neighbourhood works because it is a cluster and a hub. Tileyard businesses collaborate and work together with ideas passing through numerous different people and businesses across the lifetime of a project. This collaboration is not just limited to the music industry, as companies from all sectors cited this important factor as a key reason for being located there.</p> <p>We believe this neighbourhood forum will give our community a common space to help develop the neighbourhood planning policies that will work in the interests of those who live and work within the area. A neighbourhood forum will give us a stronger voice over planning policy and planning decisions and we feel this is essential in a neighbourhood area that is changing rapidly.</p> <p>Moreover, we believe the formation of this neighbourhood forum will help foster greater civic engagement among the businesses and residents located in our area and help build links with Islington Council. We are keen to ensure that future developments lend themselves to creating a harmonious and vibrant business and residential area, while continuing to protect the heritage and viability of this unique creative cluster.</p>
R.12	[REDACTED]	[REDACTED]	Business	[REDACTED]	27/04/2020	<p>I am writing to express my support for the formation of the Tileyard Road and Vale Royal Creative Quarter Neighbourhood Area and Forum. As the [REDACTED] of an organisation based within the proposed neighbourhood area, who both lives and works in Islington, I believe that this Neighborhood Forum would be very beneficial for the borough and our creative industries as it would help facilitate dialogue between the council and organisations based in the Tileyard cluster.</p> <p>Since locating to the area covered by the forum in September 2015, we have found a real sense of community. Many of the businesses located in the area are pioneering R&D intensive creative industries like ours. Within this cluster, we have found useful partners and we see the forum as providing a collective voice to improve our neighbourhood.</p> <p>Since [REDACTED] located to the area, we have grown significantly recruiting a number of Islington residents as staff (I live in Islington and my wife's family have been in the borough for over 150 years). We now work closely with [REDACTED] as a client. [REDACTED] is a world-renowned music hub and should be a real landmark in Islington. We believe that this neighbourhood forum can help develop ideas and planning policies to help our area develop so its national and international reputation can continue to grow.</p>
R.13	[REDACTED]	[REDACTED]	Statutory	[REDACTED]	30/04/2020	<p>We believe our community works due to its clustered quality. The hybrid nature of recent developments locally, which have offered industrial space and high-grade creative studio space side by side, has helped create a diverse and vibrant community. We believe that the formation of this neighbourhood area and forum is an important step in protecting these spaces in planning policy, and the cultural character and the heritage of the area.</p>
R.14	[REDACTED]	[REDACTED]	Statutory	[REDACTED]	01/05/2020	<p>[REDACTED] has no objection to the designation of the Neighbourhood Area and Forum promoted by the applicant. The boundary of the proposed neighbourhood area could nonetheless be extended to the east to include the commercial units and hardstanding that extends above the east coast railway.</p> <p>The proposed boundary of the Neighbourhood Area appears to go down the middle of York Way, in line with the borough boundary. The forum should make it explicit where the neighbourhood boundary lies and whether it intends to cover the area of the carriageway. The applicant should note that Camden Council are working on a cycling scheme along York Way which would enhance walking and cycling connections between the neighbourhood and Kings Cross/ St Pancras.</p>
