SUBJECT: PENSION FUND ADMINISTRATION COST 3-YEAR FORECAST AND CASHFLOW

1. Synopsis

- 1.1 This report is for the local pension board to review the Funds administration cost's 3 year forecast and annual cash flow, as part of its work programme objective to make recommendations on statutory and non-statutory policies and strategies.

2. Recommendation

- 2.1 To review the cash flow and forecast of administration cost attached as Appendix 1 and Appendix 1A.

3. Background

- 3.1 The Public Services Pensions Act 2013 requires the establishment of local pension boards for each Local Government Pension Fund. Each administering authority must establish a pensions board no later than 1 April 2015.
- 3.2 Local Government Pension Scheme (Amendment) Governance Regulations 2014 (the Governance Regulations) provide that Pensions Board will have responsibility for assisting the 'scheme manager' (the Pensions Sub Committee in Islington's case) in relation to the following matters:

To ensure compliance with:

- the Local Government Pension Scheme Regulation (LGPS),
- other legislation relating to the governance and administration of the LGPS, and
- the requirements imposed by the Pensions Regulator in relation to the LGPS to ensure the effective and efficient governance and administration of the scheme.

- 3.3 The Pensions Sub -committee is the decision making body of the Fund and the Pension board can only advise or make recommendations to the Pensions -Sub Committee

The Pension Board should therefore be mindful;

- Its work plan should take account of the Fund's own work programme and seek to add value
- Servicing the Pension board will consume Fund management resources and time
- Senior Fund officers servicing the pension Board may on some fund performance issues be personally compromised and conflicted
- Some work items required may need the use of specialist external consultancy resources rather than using the officers servicing the Fund.

The 3 year Forecast of Pension Fund Admin Cost and Annual Cashflow

- 3.4 A 3 year forecast for pension administration cost including investment management has been prepared based on actuals to month ten in 2020/21. As planned, the Council prepaid its 3 year deficit lump sum of £27m in April 2020. The fund is forecasted to remain in net negative cashflow position and will have to call on investment income to meet expenditure in the region of £18m a year.

- 3.5 The 2021/22 cashflow plots the monthly income and expenditure expected and best use of surplus cash to minimize cost and investment capital. This is a monitoring tool to avoid disinvestment and for future investment strategies to generate enough investment income to meet future cashflow requirements.

- 3.6 Members are asked to review the cashflow and budget forecast.

4. Implications

4.1 Financial implications

Any cost associated with the governance of the fund will be treated as administration cost and charged to the Fund.

4.2 Legal Implications

The Public Services Pensions Act 2013 requires the council to establish a local pension boards by 1 April 2015. The board must comply with the requirements of the relevant Legislation.

4.3 Environmental Implications and contribution to achieving a net zero carbon Islington by 2030:

Environmental implications will be included in each report to the Pensions-sub committee as necessary. The current agreed investment strategy statement for pensions outlines the policies and targets set to April 2022 to reduce the current and future carbon exposure by 50% and 75% respectively compared to when it was measured in 2016 and also invest 15% of the fund in green opportunities.
