

Appendix 3

Bowman's Mews Designation – Representations For the Designation

Representaion 1

I strongly support this proposal as it will allow the boot market manger to monitor and prevent illegal trading in Bowmans Mews and Hercules Place near to the boot market.

Representation 2

...initially there were issues with "Illegal Trading" & "Anti Social Behaviour" within the boundaries of Hercules Place & Bowmans Mews ...during the issues, we fully supported & cooperated with the street trading Team in trying to manage the area... ultimately, meetings were arranged with the TS team, Local residents which were facilitated by the Head Mistress of Grafton School.

During the meetings all the issues were discussed & a solution agreed by all...We suggested that licencing the area of Hercules Place & Bowmans Mews to myself would allow us (The Market Operators) to manage & disperse with authority any illegle trading and or report antisocial behaviour in that area through regular monitoring....the results spoke for themselves...The area was cleaner and with perseverance cleared of the issues that plagued HP & BP with persistent management of the area... This meant that the stretched resources of attendance by the Trading Standards Team & costly rubbish clearance was virtually eliminated....I'm in regular contact with our local residents & they too were happy with the outcome & management of the area...the results speak for themselves...with the permanent license, we would continue with our committment to manage the area, cleaning up on Saturday & Sunday evenings, ensuring we continue our promise to our local residents...

We look forward to a positive outcome & will continue to support the Council, residents & local neighbours by managing the area to the best of our ability by ensuring any illegal trading is controlled, reporting illegal activity or rubbish dumping where & when the need arises...the end result in our part, making the area cleaner & safer....

I'm sure any communication with the residents will confirm they are happy for us to continue managing the area discussed..

Regards XXXX

Dear xxxxxx

Please would you record as part of the consultation that the designation of the trading area in Bowman's Mews was discussed by the Nag's Head Town Centre Management Group meeting on 23 November 2021 and the group agreed that it supports the designation. The temporary designation has successfully helped the council and its partners, especially the management of the weekend market in the Grafton School playground, tackle long standing illegal street trading activities in the

area. The group therefore requests that the current arrangement is continued with the official designation of the trading area in Bowman's Mews.
