OUR MISSION:		To create a more	equal Islington, where every	one who lives here has an equ	al chance to thrive	
OUR PRIORITIES:	Children and young people have the best start	Local jobs and businesses in a thriving local economy	Everyone has a place to call home	Cleaner, greener, healthier borough	Communities feel safe, connected and inclusive	Team Islington
OUR CORPORATE OBJECTIVES:	Always keep children and young people safe and secure and reduce the number of children growing up in poverty	Help residents get the skills they need to secure a good job	Increase the supply and choice of genuinely affordable homes	Keep the streets clean and promote recycling	Help residents to feel socially active and connected to their community	Continuing to be a well run Council
	Make sure young children get the best start	Reduce levels of long term unemployment and worklessness	Ensure effective management of council housing	Make it easier and safe for people to travel through the borough and beyond	Harnessing technology for benefit of residents and staff /help residents to live	Manage our budget effectively and efficiently
	Ensure our schools are places where all young people can learn and thrive	Ensure Development is well planned	Prevent homelessness and support rough sleepers	Take positive action to combat climate change through reducing our carbon emissions		Make sure our workforce is diverse, highly skilled and highly motivated
	Make sure fewer young people are victims or perpetrators of crime	Promoting an inclusive economy		Make sure residents have access to high quality parks, leisure facilities and cultural		Harnessing technology for benefit of residents and staff /help residents to live
		Provide practical support to help residents cope with the cost of living		Support people to lead healthy lives.		Be open and accountable
				Safeguard and protect older and vulnerable residents		
				Help residents to live independently

PI No.	Indicator	Better	2018/19	2019/20	2020/21	2021/22	Yearly trend-		2022/23				Notes on performance (the previous commentary	If underperforming: Reasons for underperformance and
	indicator	to be	2010/10	2010/20			line	Q1	Q2	Q3	trend	and benchmarking	column retained here to use if wish)	mitigating actions
	Make sure young children get the best	start												
CYP1	Percentage of 2 year old places taken up by low income families, children with Special Educational Needs or Disabilities (SEND) or who are looked after	↑	63%	70%	61%	70%	\sim	73%		76%		Termly. Target is to improve on the % for the same term in the previous year. % based on number taking up funded place divided by number who were eligible (based on DWP data). Q3 data relates to the Autumn term in 2022/23.	Autumn term performance in 2021/22 was 70%, so the latest performance has met the target as it is 6% points above last year's equivalent term.	
CYP2(a)	Number of families achieving a good outcome in the Supporting Families Programme	Ŷ	n/a	n/a	Not compara ble	Not comparab le		104	157	230	/	Measure relates to the number of families in the programme who successfully acheive the full range of outcomes. Moving to new framework for next phase of Supporting Familes Programme. Target 22/23: 292 Prior to 2020/21, numbers were reported at the end of each phase, which spanned multiper years, so are not available. Figures for 21/22 not comparable due to implementation of new framework in 22/23	There were 73 families that achieved the full range of outcomes in Q3, taking the total up to 230 families at the end of Q3 in 2022/23. This indicator is on track with the annual target.	
CYP2(b)	Total number of children and young people supported by Islington services	n/a	n/a	n/a	n/a	n/a			1,880	1950			A total of 1,950 children and young people were supported at the end of 03. This number is total of 1,308 children and young people in CIN, CLA and CP caseloads, and 642 children and young people in families with an open Early Help episode.	
СҮРЗ	% of eligible children & young people aged 4-15 taking part in the holiday activity and food programme	↑	n/a	n/a	n/a	n/a		18%	36%			Termly. Target is to see an increase based on the corresponding term in the previous year. Initial year's figures found take-up had seasonal trends, so term-by-term improvement would not be appropriate to use as a target.		
CYP4(a)	Number of participants at Youth and Play provision - 5-12 year olds	↑	2,784	2,902	1,030	2,047	7	974	1,585	1,858	/	Quarterly (Cumulative). Participants are those that have five or more contacts at the same provision within a year. Figures relate to unique individuals, so if someone is a participant at two different provisions, they are counted once. The target is to see an increase in participants, year-on-year. Most participants reach the threshold of five contacts in the early part of the year, so the profiled target for each quarter is based on the equivalent quarter the previous year.	New indicator. Previous performance measure on Youth & Play participation was removed during the in 2020-21 as some services were not operational. Target is based on the number of participants during the same period of the previous year. Previous year Q3 figure is 1,798, so performance is up on last year.	
CYP4(b)	Number of participants at Youth and Play provision - 13 to 25 year olds	Ť	2,763	2,642	1,062	2,089	\mathbf{V}	526	1,231	1,650	/	See above	Previous year Q3 figure is 1,788, so performance is down on last year.	Whilst the raw number of participants is slightly down on last year, the percentage of participants in relation to contacts remains on target to be at least 53% by the year end which is in line with previous years. If 19 52.2%, 19-20 52.7%, 20-21 53.8%, 21-22 53.9%. This suggests that the quality of the opportunities and experiences on offer to young people is consistently strong and that the youth work relationships that young people can access through the offer remain of value to them.
CYP4(c)	Number of contacts at Youth and Play provision - 5-12 year olds	↑	4,596	4,652	1,583	3,185	\mathbb{V}	1645	2,439	2,826	/	Quarterly (Cumulative) Figures relate to unique individuals, so if someone attends two different provisions, they are counted once.	year.	In the 6 to 12 (adventure play) age range, the reduction is focused on a number of adventure playgrounds, for example Cornwallis and MLK Adventure Playgrounds have both been closed for the whole financial year for complete rebuilds of their play buildings. Both these sites will reopen in the late spring and will deliver full summer programmes in 2023. It is also possible that the reduced number of children in the primary age cohort, particularly in the south of the borough, may also a factor affecting the number of children engaging in adventure play

CYP4(d)	Number of contacts at Youth and Play provision - 13 to 25 year olds	↑	5,293	5,012	1,972	3,875		1077	2,387	3,182	/	Quarterly. Figures relate to unique individuals, so if someone attends two different provisions, they are counted once.	Previous year Q3 figure is 3,353, so the figures are down on las year.	This underperformance to the end of Q3 could be linked in part to the time needed to re-establish Platform's offer. Platform engaged with almost 1000 young people in 2019/20. It had to close towards the end of 2021 calendar year and reopened within the financial year 2022/3. Relationships with new youth workers and a new offer of opportunities need to be established in line with young people's wishes, interests and needs. These can take time. Officers will work together to support young people moving forward in line with future decision-making

CYP5	Number of Looked After Children	→	313	366	342	385	N	399	379	351		Quarterty We no longer have a target for this measure, as the targets agreed as part of the Children & Families Outcomes Framework ended at the end of 2021/22, but we would be looking for a reduction in CLA in the long term.	There has been an increase in the number of Children Looked After since October 2021 with a high ogf 399 children in June 2022. Since then, the numbers have been going down and there were 351 CLA at the end of December 2022. As in Q2, in Q3, there were more children ceasing to be looked after (50) than becoming looked after (28). Short term increases in the number of Children Looked After relating to older Unaccompanied Asylum Seeking Children (UASC) have occurred frequently in recent years. As many recent UASC are aged 17, they are ceasing to be looked after for this financial year and the figure at the end of December 2022 was 53. Two thirds of the CLA ceased to be looked after was non-UASC children.	
CYP6	% of repeat CLA	¥	4.9%	5.2%	5.9%	5.0%	>	4.0%	5.6%	10.70%		Target = 5% or less Measure resets each year. Based on number of children who started to be locked-after in the reported quarter who had previously been looked-after in the last 12 months	There were 28 children who started to be looked after in Q3. Three children had previously been looked after in the last 12 months and the rate of repeat CLA was 10.7% (3 children) in the Q3 cohort. So far this year, S of the 112 CLA had at least one repeat episode in the 12 months before their care start date and the rate of repeat CLA is 4.5%.	Numbers of children becoming looked after is reducing and therefore small numbers of those who have been looked after before equates to over 5%. In Q3, 3 children had repeat episodes of CLA.
CYP7	Attendance of CIN	¢	92.3%	Not available due to Covid	90.5%	Not yet available						Historical data based on published figures and includes non- lsiington schools. Termly data for 2022/23 academic year will be based on collections from Islington schools only.		
Ensure	our schools are places where all young	people	can learr	n and thri	ve			See brackets for data						
CYP8(a)	Percentage of primary school children who are persistently absent (below 90% attendance)	¥	9.7%	Not available due to Covid	9.6%	TBC - March 2023		16.6% (2021/22 Aut & Spr terms provision al)	16.6% (2021/22 Aut & Spr terms final)	18.3% (2021/22 Annual provision al)		Termly (Cumulative). Target is to be below the Inner London average, which is published with a time lag.	The provisional percentage PA figure of 18.3% in Islington primary schools during 2021/22 Academic year period was above the national figure of 17.9%. Despite this, Islington ranks 54th out of 151 which is an improvement on 2020/21 ranking of 65th. Inner London figures which the target is based on will be published in March 2023. There was a change in how absence related to Covid was recorded in 2021/22, so this period's data is not directly comparable to 2020/21 figure.	From September 2023, all local authorities are expected to: Rigorously track local attendance data to devise a strategic approach that prioritises pupils, pupil cohorts and schools needing support and have School Attendance Support Teams that provide core dructions free of charge. The focus of the termly meetings will be: "Ormmunication and advice: regularly bring schools together to communicate messages and share best practice "Targeting Support Meetings: termly conversations with schools, using their data to identify those at risk and agree targeted actions "Mult-disciplinary support: access to Early Help to work with families and provide whole-school support -Legal intervention: using the full range of parenting responsibility measure "Monitor and mprove the attendance of children with a social worker through their Virtual School. Islington is working with the DIE to have these plans in place in the summer term 2023. All primary schools have been RAG rated. 15 schools will be the immediate priority. The LA will be working intensively with these school to improve attendance. Training to support atendance teams will commence before Summer 2023.

Increa	ase the supply and choice of ge	enuinely a	affordabl	e homes										
HN1	Number of planning permissions agreed for new council housing			43	30	/	↑	0	0	36		Measure: Performance reported as YTD cumulative total at the end of each quarter. Target: 2022/23: 82 (Q2: 36, Q3: 46)	36 council rent homes were granted planning permission in Q3. A further 43 should be due March - tenures changed to improve viability (forecast al 46)	t
HN2	Number of new council homes started on site			-	47		↑	0	0	0		Measure: Performance reported as YTD cumulative total at the end of each quarter. Target: 2022/23: 77 (Q2: 25, Q3: 3, Q4: 49)	6 due to start Q4	A furth comm tende
HN3	Number of affordable new homes (social rented or shared ownership) completed by the council			53	10	\mathbf{i}	↑	46	77	77		Measure : Performance reported as YTD cumulative total at the end of each quarter. Target: 2022/23: 153 (Q1: 102, Q3: 51)	The 70 council rent homes due to complete in Q3 have slipped to Q4 - of these 19 have already completed with the remainder on track for end of Q4	
HN4	Number of affordable new homes (social rented or shared ownership) completed by Developers			118	40		↑	0	0	0		Measure: Performance reported as YTD cumulative total at the end of each quarter. Target: 2022/23: 171 (Q3: 10, Q4: 161) (Note: delivery of these units is outside the scope of the New Build programme, we monitor the figures but have no influence over successful delivery of target)	Just checking but any completions look doubtful	
Preve	ent homelessness and support	rough sle	epers											
HN5	Percentage of homeless decisions made in the target timeframe			40%	68%	/	↑	77%	70%	71%	>	Measure : Performance reported as YTD percentage at the end of each quarter. Target: 90%	Performance in Q3 improved by 1% over the previous quarter. However, the service experienced an significant increase in demand equating to 20% over Q2. The increase in demand has stemmed from homeless applicants approaching due to a combination of domestic abuse, disrepair (damp/ mould/ condensation). An improvement plan is being implemented to address this performance and measures being implemented include staff working additional hours to increase the number of decisions reached.	Perfor servic homel demai homel under the off officer 90%.
HN6	Number of households in nightly booked temporary accommodation	394	320	468	403	\bigwedge	¥	446	482	537		Measure : Performance reported as rolling snapshot figure at the end of each quarter. Target : 365 (annual)	Homelessness is increasing nationally and the most recent Government data shows a 15.1% increase. Therefore, this increase is below the national increase.	The 53 of fact 1. a si 2. a re a redu accorr An inc Q3 las
HN7	b) Number of homeless preventions			947	701		ŕ	250	449	647		Measure : Performance reported as YTD cumulative total at the end of each quarter. Target : 850 (annual)	Performance in Q3 was below target for the quarter(213), and performance will have to improve to achieve the 203 preventions required to meet the end of year target of 850 however homelessness prevention remains at the heart of the service provision. The service has begun to receive reports from neighbouring boroughs of homeless approaches by households who are being evicted or may be shortly due to the unaffordability of private sector accommodation. Though this is beginning to materialise in Islington, we are anticipating this eventuality and consequently remain concerned about how this may be mitigated when the energy price cap increased on 1 October 2022.	1. an i accom 2. a co appro: 3. con
HN7	c) % of homeless approaches											Measure:		I
	successfully prevented		1	1	L							Target:		

If underperforming: Reasons for underperformance and mitigating actions

urther 22 homes (Hathersage & Besant Courts) should have started during Q2, but mmercial condtions have meant the contractor were unable to stand by their origina ider price. The returned retender is currently being evalutaed

erformance has been affected by a combination of the increased demand for the rvice which has increased over the previous quarter and the complexity of the imeless cases presenting that require more detailed inquiries. The increased imand has been reflected nationally that has seen an increase of XX% in statutory imelessness presentations for the same quarter. The mitigating actions that are iderway include continuing weekly focus on performance on this indicator, increasin e officer target for decision reached and provision of overtime for high performing ficers to reach decision within the target time frame. There is an annual target of %.

e 537 reflects underperformance by 47% (target of 365 annually), due to a number factors including:

a significant increase in homeless approaches

a reduction in social housing availability in contrast to the previous year, leading to eduction in throughput and higher numbers of customers in nightly paid commodation.

increase in main duty homeless acceptances of 57% compared to Q1 and Q2 and last year in part due to the introduction of the Domestic Abuse Act.

nere are wider factors of concern that may impact on homelessness prevention ccess in future quarters. These encompass:

an increase in rents in London which will make securing private sector commodation more challenging

a contraction of the private sector market by what is considered to be

proximately 35% following increases in inflation, interest rates and cost of energy corresponding decrease in affordability due to the cost of living crisis, energy costs, lation etc which will impact more acutely on those on low and moderate incomes concerns about the affordability of social housing properties owned by Housing sociation

a further increase in homeless presentations from September 2022, as initial sixonth placements through the Homes for Ukraine scheme end.

HN8	Number of people sleeping rough			11	6		¥	14	9	7		Measure : Performance reported as rolling snapshot figure at the end of each quarter. Target : 0	Rough sleeping is increasing across London. However, Islington Council continues to re-house people from the streets as no one should be sleeping on the streets of Islington Islington Council accommodated over 200 sleeping rough in Islington over the last 12 months. 1 person sleeping rough is one person too many. The council is committed to eliminating rough sleeping. • Mu • Mu • Mu • Fc • Ar • Pe
Ensu	re effective management of cou	uncil hous	sing										
HN9	Percentage of all lettings provided to tenants transferring to alternative accommodation			35%	29%	~	ŕ	39%	34%	31%	/	Measure : Performance reported as YTD percentage a the end of each quarter. Target : 35%?	Lettings to transferring tenants is below target by 4% The service continues to focus on underoccupiers to release larger properties for households that need them and encouraging social housing tenants to consider the mutual exchange scheme to increase the lettings to those seeking a transfer. It will be challenging to achieve the target for two reasons: •Firstly, the substantial savings target to reduce the use of nightly paid temporary accommodation. This means the number of lettings to statutory homeless households will be increasing from 36% to 46% which will impact on lettings to those transferring. •Secondly, the overall yearly reduction in the number of social housing properties available to let.
HN10	Percentage of LBI repairs fixed first time			92.9%	88.5%		↑	88.4%	90.4%	87.8%		Measure: Performance reported as YTD percentage a the end of each quarter. Target: 85%	First time fix KPI is measured and reported using repair completion data from OneServe, our Job management system including Carry over / Follow on data which determines whether further work is required to complete the requested repair or an additional repair has been identified. For Qtr2 first time fix has improved over the previous Qtr1 by one percentage point and above target by more than four percentage points.
HN11	Rent arrears as a proportion of the rent roll - LBI (%)			4.71%	4.50%		¥	4.9%	4.9%	5.0%		Measure : Performance reported as YTD percentage a the end of each quarter. Target : TBC	t In April 2022 the Council took back management of approximately 3,000 nor PFI2 housing properties, which resulted in the proportion of rent arrears of the rent roll for LBI increasing
HN12	Rent arrears as a proportion of the rent roll - partner properties			4.91%	5.38%	-	¥	4.7%	4.9%	5.2%	1	Measure: Performance reported as YTD percentage a the end of each quarter. Target: TBC	The rent arrears as a proportion of the rent roll for PFI1 propertiesonly, has remained consistent the slight increase at the end of Qtr 3 may be due to the Christmas period as the percentage of arrears has reduced this week to 5.07 %
Make	sure fewer young people are v	ictims or	perpetra	tors of cr	ime								
HN13	Number of high risk victims successfully exiting the Community Risk MARAC			62	46		↑	17	10	20	\checkmark	Performance reported as YTD cumulative total at the end of each quarter.	We are operating well over capacity and project this year we will be hearing 76 cases (over 100% over the annual target). There is a clear need for increased capacity in this area. With current staffing levels it is proving very difficult to further improve the service, as staff time is taken up trying to keep on top of the huge numbers of referrals. In the ASB review the CMARAC model was held up as a good example of working and the work of CMARAC should be extended.

- umber of people with complex needs has increased (in particular unmet mental ealth needs) meaning people are taking longer to build trust with our teams and ove away from the streets into accommodation.
- his has led to rough sleepers moving into Islington due to the lack of provision in the proughs the rough sleepers were previously in.
- terms of mitigating actions, the following has been actioned by the service :
- ncrease to 4 x outreach shifts per week
- Continuing with 1 bed purchase programme
- Stacey Street opened from 2.8.22
- Creating new services funded via RSI including new navigator team aimed at eventing people rough sleeping
- Meeting with other boroughs to link people back in and reconnecting where possible Making full use of North London Sub-region Hub
- Fortnightly Task and Targeting Meetings Analysing data to identify trends
- Peer support service operational and recruiting new peer mentors

The reason for the increase in the arrears figures from 2021-22 to 2022-23 is that we book back the management for the PFI2 housing stock approx 3,000 properties. We ormally see an increase this time of year after the December holidays, this year we ave also had the mid-year increase to heat charges on 28 November 2022. is very unlikely that we will reduce our arrears due to the increase in the cost of livin nd fuel bills, which will adversely affect a majority of our residents and limit their pility to make rent payments.

here is an annual target of 36 cases to be exited through CMARAC so were at 50%riget already. We have improved our system for managing CMARAC cases but as ways there are issues in terms of capacity having only one dedicated officer to the ork. This is something that we are seeking to improve by a possible transformation d given the clear need for the CMARAC as well as the huge number of positive itcomes associated

ADU	LT SOCIAL CARE

ASC1	Percentage of ASC service users receiving long term support who have received at least one review in the last 12 months	TBC	43%	39%	48%		Ť	12.2%	23.9%	34%		Performance for this indicator is cumulative, measured monthly from April 2022 to March 2023. Performance is measured against monthly targets. Targets: Q1 = 13% Q2 = 26% Q3 = 39% Q4 = 52%	As of Q3 2022/23, 34% of long term service users have received a review. Performance is below the Q3 target (39%). The start of the year was impacted by the need to complete COVID reviews. In quarter 2 of this year an action plan was put in place to increase the number of reviews completed on service users receiving support for 12 months+. Since September teams have been hitting the target of 116 reviews per month. If the current trajectory continues this should be withing 5% of the target by the end of the year. It is also important to note that this only reflects the 850 reviews on long-term service users with us for 12 months+. The team also completes reviews on service users who have received care for less than 12 months. The total number of reviews is 1,600 Adult Social Care reviews in the year to date. Not all these reviews are not captured in this figure. Islington Learning Disability Partnership (ILDP) is working to improve review performance by completing a retrospective review project and improving data recording.
ASC2	New admissions to nursing or residential care homes (all ages)	159	159	189	199		¥	40	88	127		Performance for this indicator is cumulative, measured monthly from April 2022 to March 2023. Performance is measured against monthly targets. Targets: Q1 = 50 Q2 = 100 Q3 = 150 Q4 = 200	As of Q3 2022/23, there have been 127 new admissions to care nursing or residential care homes. Performance for this year is on target and lower than this point last year (177 new admissions). All new admissions are signed off at the daily Integrated multi- disciplinary Quality Assurance Meeting (IQAM). This sign off process ensures that a strength based approach is taken that other independent living options are explored with innovative solutions being used to meet need and to achieve the best outcomes for residents.
Safegua	ard and protect older and vulnerable re	sidents											
ASC3	Percentage of service users who have been supported with safeguarding and who are able to comment, report that their desired outcomes were fully achieved (making safeguarding personal)	NA	NA	67%	58%		ŕ	65%	72%	74%		Performance for this indicator is quarterly and validated at year end. The data source is both interna Islington Council data as well as data from The Mental Health Trust. Target = 70%	As of Q3 2022/23, 74% of service users reported that their desired outcomes were fully achieved. The data source for this indicator is both Islington Council internal data as well as the data from the Mental Health Trust. Due to a national hack to NHS data systems, The Trust have been unable to provide data for Q3, meaning this month performance is above the target (70%) and has significantly improved since the end of last year (58%). The Head of Mental Health Social Work, Head of Safeguarding and the C+I Safeguarding Hub are working closely together to work through issues via a safeguarding action plan, training and monthly validation data reports. As noted in the narrative above Adult Social Care are working with some adults who may disagree with the protection measures that are proposed, especially when the safeguarding involves a family member or friend. For these reasons they may not feel their outcomes have been met.

Number of Islington residents supported into paid work through the Islington CWB1 Working Partnership; with sub-targets for:	1,352	1,318	988	2,120		ŕ	2,000	820	1,443	2,080		the 4-year period April 2022-March 2026.	Performance continues to be strong in Quarter 3 with a further 637 residents supported into employment, bringing the total so far this year tc2,060 unemployed Islington residents supported into paid employment. This exceeds both the profiled target of 1,500 for this point the year, and the actual year-end target of 2,000. To achieve the corporate commitment ahea of the expected term is an excellent achievement and reflects the embodiment of the Islingto Working Partnership, the Islington Anchor Institutions' Network and council contractors who have all agreed to take a strategic approach to ensure that employment provision in the borough meets the needs of identified priority groups. Ingeus, who deliver the Work and Hea programme, Job Entry Targeted Support (JETs) and Restart. have been a key contributor to these employment outcomes.	c N/A	Local jobs and businesses in a thriving local economy
CWB2 a) Parents of children aged 0-18;	433	348	223	361	\searrow	ŕ	580	122	234	346	/	Performance is measured on a quarterly basis and indicates the cumulative total to the end of Q3 (Apr- Dec 2022)	So far this year, Council services and partners have supporte 346 parents of children aged 0- 18 into employment which is below the profiled Q3 target o #35 .	We are aware that although our partners are working with a high number o parents there is an issue with collecting data on parental status as not all routinely capture the age of client's children. This presents a challenge for reporting as 90% of employment outcomes are received from partners. Some partners have raised concern that collecting data on parental status could be seen as discriminatory. We are taking action to address this by working with our Anchor Institution network to identify how to address this gap in reporting. Perceived fears about discrimination against parents should not be a reason for failing to capture childcare and caring needs	Local jobs and businesses in a thriving local economy
CWB3 b) Young people aged 18-25;	391	381	238	339		Ŷ	560	138	228	330		Performance is measured on a quarterly basis and indicates the cumulative total to the end of Q3 (Apr- Dec 2022)	In the period April to December 2022, Council services and partners supporte 330 18- to 25- year-olds into paid employment. This is below the profiled Q3 target o 420 , but is better than performance at the same ime last year.	The data represents two challenges being faced at a local, regional, and nation level. The first is successfully engaging with young NEETs and the second is more complex needs being identified by practitioners, with an increasing numbe of young people citing social, emotional, and mental health challenges as their primary barrier to employment post pandemic. In response, the council is working more closely with youth providers and partners such as the Department for Work and Pensions (DWP) to improve	r Local jobs and businesses in a thriving local economy
CWB4 c) Disabled people / those with long term health conditions;	283	300	186	513	\sim	^	500	126	234	372		Performance is measured on a quarterly basis and indicates the cumulative total to the end of Q3 (Apr-Dec 2022)	So far this year, Council services and partners have supporte 372 residents with a disability/long term health condition into employment, which is marginally below the profiled target of 375 . The second largest programme delivering employment support in Islington is the Work and Health Programme. This quarter they supported 62 residents into work. Of those 31 (50%) hi a disability or long-term health condition. The Restart programme does not target residents with a disability but was able to support 234 into paid employment of which 59 (25%) had a disability or long-term health condition. The residents with a utism or a learning disability were supported into paid work. The learning disability and autism subgroup has an annual target to support 20 into work and are on track to meet the year-end target. Council services and partners have supporte1, 123 residents from Black Asian and Minority	N/A 9	Local jobs and businesses in a thriving local economy
CWB5 d) BAME; NEW: Sub-targets for:	597	661	491	1,044	\sim	ŕ	1,200	412	745	1,123		2022). From 2022/23, we will also monitor outcomes for specific subgroups (as below), based on the findings	Ethnic residents into employment exceeding the profiled target o900 . The Islington Working Partnership reports good outcomes for supporting residents from Blac Asian and Minority ethnic communities into employment. In response to research undertaken by the Council and London Metropolitan University last year to look at the barriers and challenges for this cohort. Additional focus has been placed on outreach and engagement for dhe following groups: Black African, Black Caribbean, Turkish and Kurdish, Bangladeshi and Pakistani. In Quarter 4 there will be more targeted intervention to establish links with Turkish/Kurdish ar Bangladeshi residents. Work is underway with Adult Community learning to identify learners	expenencing similar issues around captuning data as for parential status. Partne gather ethnicity information using broad general categories, but more accurate monitoring is required for us to assess the effectiveness of our targeted work. It is likely that we will be able to give an overview of sub-targets based on some partner returns, but not a universal picture.	businesses in

CWB32	NEW: Number of opportunities brokered through Inclusive Economy & Jobs	N/A	N/A	N/A	N/A	N/A	ŕ	Baseline year	Report from Q3	Report from Q3	206	Baseline year to inform future targets	The Local Economies team have brokered 206 inclusive economy opportunitiesby liaising with small businesses across the borough, an average of 68 per quarter. Outputs include (bu are not limited to) supporting a business to set up an Islington Working account, referring a business to other council run programmes (e.g., Black Pound Day or Market Traders Suppor securing a supply chain outcome for a small business, or moving local entrepreneurs into an Affordable Workspace setting. This indicator does not represent the breadth of Local Economies' business engagement, the full extent of which will be reported at the end of the year.	N/A	Local jobs and businesses in a thriving local economy

CWB33 NEW: Number of new businesses offering World of Work activities	N/A	N/A	N/A	N/A	N/A	ŕ	40	8	17	28	Aims to get a further 40 businesses offering WoW activities. Cumulative measure showing progress YTI (Apr-Dec 22) in reaching this target	11 new businesses offered world of work activities across primary, secondary and FE settings this quarter. Among these organisations, there was good representation from the creative sector – one of our priority growths sectors – because of some targeted businesses bengagement by the team which has seen several graming, screen and backstage micro businesses supporting the programme. In addition, new employer relationships were established through social value commitments and closer partnership with procurement colleagues.	Whilst Quarter 2 is always quiet (with very little activity due to the summer holidays) Quarters 3 and 4 are the busiest periods for engaging businesses in World of Work. Performance picked up in Q3 with a further 11 new businesses in response to the targeted business engagement underway to attract growth sector organisations onto the menu – with particular focus on the creative industries and green skills. We expect to attract further new busnesses in Quarter 4 to enable us to reach the target of 40 for 2022/23 There are also several new opportunities emerging through social value agreements with partners such as Marborough Highways, the three new community broadband providers and Finsbury Park Leisure Centre development. Keep	the streets clean and promote rec	ycling												
E1	Percentage of household waste recycled and composted (reported a quarter in arrears)	29.3%	29.6%	31.3%	30.1%		ſ	28.4%	27.9%			Performance through the year is reported as cumulative 'year to date' and a quarter in arrears . RRP target for 22/23 is 33%. Q1 has now been revised down from 30.0% to 28.4% due to misallocated timber tonnages. 21/22 London benchmarking sees us as dropping from 4th to 5th among inner London Boroughs.	Discrete Q2 has come in at 27.4%. The struggling current trend is attributed to the economic downturn as both recycled and residual tonnages are down, as well as the push on commercial recycling adversely affecting the NLWA non- household apportionment.	Actions are ongoing communications campaign, expansion of food waste recycling service to remaining purpose built blocks of flats, pilot food waste service to flats above shops and Islington's first 'Library of Things' in Finsbury Park.
E11	Number of missed waste collections - domestic and commercial (monthly average)	324	318	289	262	/	¥	273	265	251	/	This is reported as discrete quarters to show in-year trend. 22/23 target is 288 pcm.	Each consecutive quarter this year showing steady improvement and ahead of target.	
E6	a) Litter - Local Environmental Quality Surveys % of sites satisfactory	90.7%	89.9%	93.5%	96.6%		↑	98.7%	98.5%	98.9%		This is reported as discrete quarters to show in-year trend. 22/23 target is 95%.	All quarters this year showing good improvement on 21/22 as a whole which was 96.6%, itself ahead of 93.5% in 20/21. Improvements attributed to return of individual sweepers to their substantive rounds.	
E7	b) Detritus - Local Environmental Quality Surveys % of sites satisfactory	92.1%	93.5%	91.1%	92.4%	\bigwedge	Ŷ	97.2%	96.7%	97.6%			All quarters this year showing strong improvement on 21/22 as a whole which was 92.4%, itself ahead of 91.1% in 20/21. Improvement due to use of local land use data to target interventions on residential streets and return of individual sweepers to their substantive rounds.

Supp	ort people to live healthy lives											
PH1	Population vaccination coverage DTaP/IPV/Hib3 at age 12 months.	N/A	N/A	84%	85%		↑	88%	89%		Reported: Quarterly in arrears. Annual target :Improvement to 21/22 (plus quaterly measure)	In Q2, 89% of children had a complete set of 6-in-1 vaccinations be the age of 1. This is similar to Q1 2022/23 (88%) but rates of prima vaccinations at age 1 have gradually increased over the last 4 qua suggesting some recovery from lowered rates during the pandemic
PH2	Population vaccination coverage MMR2 (Age 5).	N/A	N/A	71%	70%	/	1	70%	69%		Reported: Quarterly in arrears. Annual target :Improvement to 21/22 (plus quaterly measure)	In Q2, 69% of children aged 5 had received both doses of the MMI vaccination. The percentage uptake is similar to Q1 22-23 and sim the pre-pandemic plateau of 70%. The uptake of the MMR vaccine similar to the same period last year for Q2 21/22 at 68%. The childr covered by the data for this quarter were due their second dose of during the first year of the pandemic (between February 2020 and January 2021) and therefore may have been more likely to have m or delayed vaccinations due to difficulties or fear of accessing heal during the pandemic.
PH3	Health visiting performance of mandated visits - % new birth visits	New	New		N/A - New Indicator		1	96%	95%		Reported: Quarterly in arrears. Annual target : 95% (plus quarterly measure)	In Q2, 95% (533/562) of babies received a New Birth Visit within the specified time frame. 24 were seen after 14 days (of whom 10 babies were in hospital). Including late visits, 99% of babies were seen are exception reporting accounted for all children. The vast majority of (99%) were carried out at home, which both supports families with own environment and enables health visitors to assess the enviror in which the baby is living and if any risks may be present.
PH4	% Of eligible population (40-74) who have received an NHS Health Check.	N/A - New Indicator	New	New	N/A - New Indicator		↑	2.4%	3%		Reported: Quarterly in arrears. Annual target: 8.5% (plus quaterly measure)	During Q2, 3% (1,807) eligible residents received a health check a a whole year target of 8.5%. This is a 39% increase in the number Health Checks delivered when compared to the previous quarter (compared to 1,300).
PH5	Percentage of smokers using stop smoking services who stop smoking (measured four weeks after quit date)	See previous dashboa rds.		58.3%	61.5%		↑	64.7%	68.8%		Reported: Quarterly in arrears. Annual target: 55% (plus quarterly measure)	In Q2, the number of smokers achieving the four-week quit rate watarget at 68.8% across the service. This is higher than the previou at 64.7% (Q1) and when compared to this time last year when it w 61%. The service is successfully reaching socio-economic groups have health inequalities due to higher smoking rates. 73.3% of sucquits were amongst residents in groups with the highest smoking r the borough (including those who are sick, disabled, or unable to v long-term unemployed and routine and manual workers).
PH6	No of people in treatment year to date: Primary Drug Users	N/A - New Indicator	New	N/A - New Indicator	N/A - New Indicator		1	788	823		Reported: Quarterly in arrears. Annual target : 5 % increase on 21/22 performance - baseline ; 1017 (cumulative measure)	In Q2, the number of people in drug treatment is 823 and the numl people in alcohol treatment is 355. This indicator is measured by date (rolling 12-month indicator); therefore, in Q2, this includes all currently in treatment (who were in treatment the previous year) ar clients who are new to treatment in the current year.
PH6	No of people in treatment year to date: Primary Alcohol Users	N/A - New Indicator	New	New	N/A - New Indicator		1	339	355		Reported :Quarterly in arrears. Annual target : 5 % increase on 21/22 performance - baseline ; 619 (cumulative measure)	See above commentary.
PH7	Percentage of drug users in drug treatment who successfully complete treatment and do not re-present within six months	See previous dashboa rds.	15 7%	12.0%	14.0%	\rightarrow	↑	9.1%	7.60%		Reported: Quarterly in arrears. Annual target: 20% (plus quarterly measure)	In Q2, 7.6 % of drug users in treatment successfully completed tre and did not re-present within 6 months, against a target of 20%. 3 alcohol users in treatment successfully completed treatment and c re-present within 6 months, against a target of 42%. These and of drug and alcohol misuse figures are likely to have been affected b major outage of the service's case management system .Q3 repor provide updated figures.
PH8	Percentage of alcohol users who successfully complete the treatment plan	See previous dashboa rds.		32.8%	36.3%	>	1	34.0%	37.9%		Reported : Quarterly in arrears. Annual target: 42% (plus quarterly measure)	See above commentary.

R2	Percentage of council tax collected in year.	96.1%	95.3%	93.7%	94.1%	~	↑	24.9%	48.6%	71.0%	/	Measure: Cumulative; current Q is an estimate Annual target: 95.3% by 31st March 2023 Profiled targets: Q1: 25.3%, Q2: 49.1%; Q3: 72.5%; Q4: 95.3% Target rationale: Annual and profiled targets are the collection rates achieved in 2019/20 (the last FY before COVID). Benchmark: Islington was the 6th best performing Inner London Council (2021/22) for uncollected council tax, with '% due' below the mean for Inner London (LG Inform). This does not account for demographic differences between boroughs.	We are 1.5% below our profiled target for this quarter and we no longer appear to be on track to meet our year end target. As reported last quarter, we recognised that the positive impact of the large "one-off" value of the energy rebates we credited to council tax accounts in Q2 would not be repeated in Q3 or Q4. As the CoLC is expected to worsen through Q4, there is a high risk that the current shortfall will come under further negative pressure and correspondingly the liklihood for the closing the shortfall to the profiled target is low. We already deploy all the known legal and behavioural collection activities used by the other London Boroughs and we will continue to use these.	N/A
R3	Percentage of business rates collected in year	96.6%	96.7%	93.0%	93.6%	~	^	28.1%	55.3%	77.8%	/	Measure: Cumulative; current Q is an estimate Annual target: 96.7% by 31st March Profiled targets: Q1: 26.2%; Q2: 52.8%; Q3:76.1%; Q4: 96.7% Target rationale: Annual and profiled targets are the collection rates achieved in 2019/20 (the last FY before COVID). Benchmarks: Islington was the 6th best performing Inner London Council (2021/22) for uncollected business rates, with '% due' below the mean for Inner London (LG Inform). This does not account for demographic differences between boroughs.	We are 1.7% above our profiled target for this quarter and on track to meet our year-end target	N/A

R8	Average number of days lost per year through sickness absence per employee (in previous 12 month rolling period)	10.8	10.7	7.4	8.0		¥	8.5	8.4	8.0		Measure: Rolling 12 month period. Target: 7.5 days (not adjusted to account for Covid absence). The target has not been adjusted to account for Covid sickness Benchmark: London Councils 2020/21 average 8.53 days (Councils' ranges are 3.93-12.8 days). CIPD Average days lost to sickness is 8.4 days. Target rationale: [A legacy target, pre-dating 2020]	There has been an improvement since Q2 in the average days lost due to sickness. Sickness absence remains lower than for 2018/19 and 2019/20, but higher than 2020/21 and 2021/22. Although higher than target of 7.5 days, the Q3 figure is lower or in line with sickness benchmark figures. The main causes of sickness absence in the rolling year to Q3 continued to be mental health related absences, Covid 19 (which has reduced slightly from Q2) and musculo-skeletal absences. Mental Health is the sickness category with highest working days lost. The top 5 sickness reasons (not days lost) make up majority of this category which are Anxiety (30.24%), Stress (28.61%) Depression (16.76%). Bereavement (9.18%) Stress, Depression, Mental Health (8.39%)	as Disability Confidence and whental health at work. Our Disability and Weilbeing Officer has made significant progress in streamlining our workplace adjustments process for new starters and existing colleagues. Working collaboratively with colleagues in our Digital Service and Health and Safety team we can now equip people to start or return to work with reasonable adjustments, including equipment and assistive technology, much faster. We also set up our Health and Wellbeing Steering group, made up of colleagues from across the Council who have co-created an action plan and sub working groups focused on ; cycling, mental health, men's health and women's health. This group helped to
R9	Percentage of workforce who are agency staff (by FTE)	10.93%	10.63%	12.60%	11.84%	\mathbf{n}	¥	11.60%	11.86%	12.89%		Measure : FTE of agency workers working on a representative day in the final month of the period as a % of the total FTE (LBI FTE + Agency FTE). Target : 10% Benchmark : London average = 15% Target rationale : Aspirational	Agency usage has increased by just over one percentage point in Q3 from Q2. Q3 level is slightly higher than combined average levels since 20/21 by 0.67% but remains lower than the London average of 15%.	Difficulties in the permanent recruitment market have resulted in longer tenures for some roles and need for additional agency capacity. Organisational change is, in cases, preventing services from advertising permanent roles or committing to temp to perm conversions. - Total headcount has increased in each month of Q3 when compared to Q2. - Total FTE has also increased by 10.32%. - There has been a 6.2% in the number of hours submitted across Q3 compared to Q2. - There has been a 26% increase in the number of interim executive workers where agency margins are higher when compared to Q2. This includes the transfer of workers which previously sat outside of the Matrix contract on high day rates and agency margins over 15%. People plans are incorporating plans for temp to perm along with dedicated work between services and Strategic Resourcing Lead and a targeted agency approach.
	a) Percentage of BME staff within the top 5% of earners	20.2%	19.3%	21.50%	26.36%		÷	27.3%	26.8%	28.3%		Measure: Top 5 % of earners when employees are ranked in order of basic gross pay (fte). Measure is made at period end date. Target: 21.7% Benchmark: London Councils 2020/21 average 20.22%. (Councils' ranges are 9.3%-33.9%) Target rationale: [Please provide reasoning behind target level]	There is an increase of over 2% since Q2, and Q3 remains above target and the London Councils average.	This remains a top priority for the Council, i.e. to improve representation at the senior levels through a combination of recruitment and progression. There are a number of leadership and dvelopment programmes to support staff to progress in their careers including: Islington Management Diploma; Solace Emerging Leaders programme. In addition, there are targeted schemes for staff groups underrperpesented at senior leadership level including: Mentoring for Inclusion programme; Black on Board. The Recruitment team have also invested in using Diverse job boards to advertise vacancies as inclusively as possible.
(b)	b) Percentage of disabled staff within the top 5% of earners	5.8%	5.8%	7.6%	8.0%	<u>_</u>	^	8.4%	8.0%	6.6%		Measure: Top 5 % of earners when employees are ranked in order of basic gross pay (fte). Measure is made at period end date. Target: 6.3% Benchmark: London Councils 2020/21 average 13.65% (Councils' ranges are 3.5%-26.35%) Target rationale: [Please provide reasoning behind target level]	Performance is down on the last two quarters but is just ahead of our target. The percentage of people formally sharing a disability, 9.43% is higher than the average across London boroughs (6.25%).	We are a Level Two Disability Confident Employer, and working towards level 3 during this year. Also we have funded a Disability and Wellbeing Officer post who is leading on work which has significantly increased the response time for our reasonable adjustments process. Ensuring we are continuing to build a culture where people with disabilities can thrive and progress their careers.

Q3 The number of CE cases investigated, and outcome upheld, and part upheld decreased. This is a good sign, but no conclusions can be drawn from this given the backlog in cases.

Q3 The number of ombudsman investigations continue to decrease. However, there is high demand and a delay in Housing Ombudsman service of 12 months and an estimated time of January 2024 to complete most investigations.

NOTE: This records number of decisions made in quarter which can relate to cases logged in previous quarters / years.

This positive trajectory is unlikely to be sustained due to both the backlog with HO cases and the CCCT when outcome decisions filter through

Please note that ASC and Children's were captured in 'People' until 21/22 therefore the total number received isn't going to match the Directorate breakdown total

The former IGO left the council which resulted in a dip in compliance. ASC recieve low numbers of requests and therefore missing 1 or 2 has a significant impact on compliance. ASC were 100% in December.
N/A
CS FOIs often require information from various departments within the directorate and although held, is not always easily obtainable, resulting in delays. The departure of the former IGO and the Christmas holidays impacted on compliance.
N/A
N/a
Environment receive the highest number of FOIs and often struggle to reach 90%. A number of changes to IGOs has further impacted compliance.
The IG team has taken over the IGO role for Fairer Together which has resulted in a postive impact on their compliance.
There has been a change in IGOs for this service which impacted the compliance for the area.

6	Please see comments relating to CS
6	N/A
6	N/A
6	Children's Services receive approximately 50% of all the SARs received in the council. These requests are often for historic social care files with are voluminous and complex. The process is timeconsuming as each file must be scanned (and each scan checked) before the files can then be reviewed/redacted and released. This has been further impacted by vacancies within the team which proved hard to recruit to. The vacancies have now been filled. It should noted that compliance has improved and the number of overdue requests have now reduced.
6	N/A
6	H&N recevied double the usual number of requests in November (14). 4 of these were sent late and in December 1 request was late. In addition to a higher number of requests, the change of IGO had an impact on their compliance.

Agency Workers												

We are continuing our work on other early intervention and prevention activities to support good mental and physical health for our workforce. We run bi-weekly Wellbeing Wednesday hybrid or in person events which are led by experts in various physical (yoga or movement) activities and experts in good mental health (mindfulness, burnout prevention, healthy sleep). We have a good level of engagement with these Wellbeing Wednesday events, with attendance increasing for every event. We organise other health and wellbeing events during related awareness events (e.g. Able Futures mental health support programme drop ins to mark Good Mental Health day). Our Corporate Learning and Development offer includes regular workshops for managers on topics such as Disability Confidence and Mental health at work. Our Disability and Wellbeing Officer has made significant progress in streamlining our workplace adjustments process for new starters and existing colleagues. Working collaboratively with colleagues in our Digital Service and Health and Safety team we can now equip people to start or return to work with reasonable adjustments, including equipment and assistive technology, much faster. We also set up our Health and Wellbeing Steering group, made up of colleagues from across the Council who have co-created an action plan and sub working groups focused on ; cycling, mental health, men's health and women's health. This group helped to launch our Wellbeing conversations model and guidance, to enable managers to have specific conversations about the overall wellbeing of their team members. The focus on wellbeing is also a primary function of our new approach to performance development; Check Ins. . Our Employee Relations team continue to support managers with the management of sickness absence cases.

6	Difficulties in the permanent recruitment market have resulted in
6	longer tenures for some roles and need for additional agency capacity. Organisational change is, in cases, preventing services
%	from advertising permanent roles or committing to temp to perm conversions.
6	 Total headcount has increased in each month of Q3 when compared to Q2. Headcount has increased in Children's Services, FT, H&N and Resources but decreased in Adults, CE, CWB,
6	Environment and PH. - Total FTE has also increased by 10.32%. FTE has increased in all
6	directorates except CE, CWB, Environment & PH. - There has been a 6.2% in the number of hours submitted across
6	Q3 with the highest amount being submitted in October. Total amount of hours submitted in Q3 was 297,560.25 compared to 279,084 in Q2.
%	 There has been a 26% increase in the number of interim executive workers where agency margins are higher (73 workers in Q2
%	compared to 92 workers in Q3). This includes the transfer of workers which previously sat outside of the Matrix contract on high day rates and agency margins over 15%.
%	People plans are incorporating plans for temp to perm along with dedicated work between services and Strategic Resourcing Lead and a targeted agency approach.
	Spend has increased in Q3 by 11.24% (£995,959.84) when compared to Q2. There has been an increase in spend across all
•	directorates except for Chief Executive, Environment and Public Health which saw a decrease in spend in Q3. Spend was highest in the month of October for Q3.
	There are several factors that contribute to this increase: - Off contract workers have been brought within contract and so
١.	visible spend has increased. - Total headcount has increased in each month of Q3 when
۱ ۱	compared to Q2. Headcount has increased in Children's Services, FT, H&N and Resources but decreased in Adults, CE, CWB, Environment and PH.
١	- Total FTE has also increased by 10.32%. FTE has increased in all directorates except CE, CWB, Environment & PH.
۱ ۱	- There has been a 26% increase in the number of interim executive workers where agency margins are higher (73 workers in Q2
۱ ۱	compared to 92 workers in Q3). This includes the transfer of workers which previously sat outside of the Matrix contract on high day rates and agency margins over 15%.
`	uay rates and agency margins over 15%.
1	While external recruitment to apprenticeship to the council is a challenge as a result of limited salary budget. We have a steady flow of opportunities being put forward. We are encouraging
١	directorate as part of the people plans to accommodate external apprentices and feeder activities eg work experience and insight
۱ ۱	days to support future opportunities. We have encouraged managers to advertise as part of National apprenticeship week 6- 12, which also includes a wider prgoramme of activity to showcase
	apprenticships. We are also encouraging recruitment to support
	september starts. Our approach is to encourage clear sightlines
	that will ensure residents are aware of when vacancies are likely to be available. Schools have indicated a reluctance to recruit
\	external apprentice as a result of our limiting recruitment criteria. This is currently being reviewed.

	role. They have plans to recruit to more when the current conort of social work apprentices complete in the summer. There is an increasing willingness in schools to recruit to teaching apprenticeships. however we have identify a gap in their needs to provide a degree level apprenticeship to staff who may later wish to move into teaching. This is a national challange. We are currently exploring a short term fix while collaborating with the goverment on a new option.
6	Both Oct and Nov 2022 saw a high number of P1s compared to previous months. A few repeat incidents relating to problem with ITSM tool which took time to identify root cause. The increased reliance on hosted and SaaS solutions had an impact on our ability to directly manage resources. As new systems are migrated out of our datacentre we will need to align our internal SLA with the contractual agreements with the suppliers.
þ	An emphasis on improving this figure is required. Regular Service Management reviews of team queues is underway.
)	Customer feedback is monitored on a weekly basis with monthly service improvement meetings to improve processes and training for staff.
)	Number of Service requests slightly lower than previous quarter (200 tickets). We are actively trying to improve this figure, and are performing Regular Service Management reviews of team queues. Staffing capacity, requestor non attendance and supply chain issues during lockdown have impacted our ability to complete service requests within SLA.
	An emphasis on improving this figure is required. Regular Service Management reviews of team queues is underway.
