Age	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Choose an item.	<p>The contract in question will have a neutral impact on different age groups. The successful supplier will be required to have due consideration of both the legislative requirements of the Equality Act 2010, but also more practical considerations that might impact residents in the course of the contract's delivery.</p> <p>There is a requirement to ensure any solutions, such as the equipment installed on a site, meet the needs of a diverse range of residents, such as those with loss of hearing as a result of old age, as well as the conduct of the supplier themselves, where works might take place in occupied residences, taking account of vulnerability issues and residents who may refuse access for this reason.</p> <p>The successful supplier will be required to outline their approach to working with diverse groups as part of the procurement process.</p>

Disability (include carers)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Choose an item.	<p>It is anticipated that the contract itself will have an overall positive impact on different impairment groups, however this will come as a by-product of the contract's effective delivery. Suppliers will be required to outline their understanding of the diverse needs of leaseholders, taking account of the borough's demographic makeup and more localised equality information wherever this is possible and practical, and this will inform effective delivery of the contract.</p> <p>As for older leaseholders, the supplier will be required to demonstrate an understanding of different impairment groups, both in their specific needs in terms of supply of equipment, but also in terms of how operatives work in occupied sites and the individual needs of residents, including communicating with the leaseholder.</p> <p>It is anticipated that the nature of the contract will have a greater requirement to consider the needs</p>

				of blind and visually-impaired leaseholders, deaf and hearing impaired leaseholders, and those with mobility impairments. As a result, potential suppliers will be required to provide insights into how they take account of the needs of these groups as part of the procurement application process, with those suppliers evidencing a greater awareness of the diverse needs of such groups likely to receive higher scores for their application as a result of this, and as such are more likely to be awarded the contract. Suppliers will also be subject to regular contract review meetings that will identify projects that require greater input from the supplier, as well as responding to any concerns the contract manager might have regarding the supplier's approach.
Race or ethnicity	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Choose an item. It will be essential that the supplier demonstrate that they are able to deliver the
