

# Recordable Decision Summary Notice

## Recordable decision taken by the Director of Digital Services

### Contract for highways asset management software - Insight/Aurora Managed Service

Date of decision	26/01/2024
Description of decision taken	Decision to agree a new contract for highways asset management software with Symology using the YPO framework Ltd for five years, which includes the cost of upgrading to their latest software, Aurora.
Reasons for decision	<p>To maintain effective ways of working and ensure continuity of service with a system which integrates effectively with existing digital and service infrastructure.</p> <p>A path to upgrade to the latest highways asset management software, to enhance and improve current services.</p> <p>To realise significant savings on the previously quoted costs.</p>
Other options considered.	<p>The option to not renew and procure an alternative platform was considered but rejected as there is insufficient lead time to go to market.</p> <p>Using an alternate procurement framework and a shorter contract length was considered but was deemed to offer less value for money.</p>
